

Zoom and Zoom for Government

What's The Difference?

Entities around the globe are using collaboration solutions to evolve the way they do business. From schools to financial institutions to government agencies, organizations everywhere rely on solutions like the Zoom platform for collaboration and communication.

In the United States, Zoom offers a separate platform called Zoom for Government designed to conform with the Federal Government's FedRAMP Moderate security requirements. Although it is designed for federal agencies,

Zoom for Government is also available to U.S. state and local government customers as well as other approved businesses and organizations that support the government customer's mission. The Zoom for Government platform is U.S.-based and managed by U.S. persons only.

What are the actual differences and similarities between Zoom and Zoom for Government? We break it down below:

	Zoom	Zoom for Government
What solutions does it include?	Zoom Meetings, Webinars, Chat, Phone, Rooms, Zoom Events, Zoom Apps	Zoom Meetings, Webinars, Chat, Phone, Rooms
What is it hosted on?	Secure co-located data centers around the world	The AWS GovCloud and two U.S.-based co-located data centers
What security features are available?	<ul style="list-style-type: none"> - 256-bit AES-GCM encryption - Optional end-to-end encryption for Zoom Meetings and Zoom Phone - Advanced Team Chat encryption - Security features across solutions 	<ul style="list-style-type: none"> - 256-bit AES-GCM encryption - Optional end-to-end encryption for Zoom Meetings and Zoom Phone - Advanced Team Chat encryption - Security features across solutions
Regulatory and compliance, commitments, and authorizations	<p>The Zoom platform's controls help support compliance with the following:</p> <ul style="list-style-type: none"> - HIPAA - PIPEDA/PHIPA - FERPA - CCPA - GDPR 	<p>Zoom for Government's controls help support the following:</p> <ul style="list-style-type: none"> - DoD IL4 - HIPAA compliance - CJIS compliance - FedRAMP Moderate - StateRAMP Moderate - CMMC compliance
Who uses it?	Anyone	<p>Designed for the U.S. Federal Government, but any state and local governments that adhere to federal requirements may also use this version of the platform.</p> <p>The Zoom for Government platform is also available for approved government contractors, integrators, or educational institutions that support a government customer.</p>

While designed to comply with the stringent requirements of the Federal Government, Zoom for Government delivers an intuitive and secure experience similar to what commercial Zoom users experience.

Both versions of the platform are scalable and flexible, giving today's governmental organizations what they need to achieve their goals while still helping to protect important information shared across the platform.
